Dear members,

RE: Membership Clarifications

I would like to inform and remind you about IFG membership as follows:

To be a member of IFG only needs active commitment to our mission and willing to contribute to achieve it. You get it through application, where you can lose membership only if you fail to contribute to its mission or any misconducts which violates the internal rules and regulations of organization.

We have two categories of membership which are;

1. **Lifetime membership:** This membership is given to individuals who want to make a long-term commitment to supporting the organization and pay a monthly membership fee upfront and receive benefits such as permanent access to information, networking, events and having the right to vote on organizational decisions.
2. **Associate membership:** This type of membership is offered to individuals who don't meet the requirements for lifetime membership, but have an interest in the work of the organization. Associate members may not have voting rights or may have limited to events and networking where this membership is only valid for two months.

The membership fee means a non-redeemable fee that a member must pay to IFG as a condition of admission to or retention of membership that is not member capital or a fee for goods, services, or facilities. It is 8 USD for two months which is used to keep the organization running.

Notice

1. The organization has a Board made of Executive committee, Director of Public relations, Director of programs and 5 commissioners, the channel of communication within and out of organization must be respected, and any violation can lead to lose membership.
2. Membership fees for two months will start to be received by the 1st October 2023 to 10th October 2023.

Thanks for your understanding and commitment to the mission of our organization.

Warm Regards,

KWIBUKA Jacques

Executive Director
